Grow 19

@19grow

About us:

Grow 19 launched in September 2019. We are a college for learners with additional needs, aged 19-25 based at The East Malling Centre near Maidstone. The college offers learners a chance to study one of two vocational options; Hospitality or Construction and Horticulture alongside Functional Skills. All accreditations are certified by the City & Guilds exam board. The aim for our learners is to go into employment, either with support or independently. or take of voluntary or community based roles, once they have completed their accreditation.

From September 2022 our Hospitality learners will be continuing to run The East Malling Centre Café every Wednesday (term time). Any profits made will go back into supporting The East Malling Centre.

Our Hospitality learners who all either have or are working towards a Level 2 in Food & Hygiene Safety would love to welcome you and your family and friends to the Centre café and look forward to seeing you there.
