About us:

Grow 19 launched in September 2019. We are a college for learners with additional needs, aged 18-25, based at The East Malling Centre near Maidstone. The college offers learners a chance to study one of three vocational options; Hospitality, Construction and Horticulture or Skills for working life, alongside Functional Skills. All accreditations are certified by the City & Guilds. The aim for our learners is to gain employment, either with support or independently, or take on a voluntary or community based role, once they have completed their accreditation.

From September 2023 our Hospitality learners will be continuing to run The East Malling Centre Café on a Monday and Wednesday (term time). Any profits made will go back into supporting The East Malling Centre.

Our Hospitality learners who have, or are working towards, a Level 2 in Food & Hygiene Safety would love to welcome you, your family and friends to the Centre café and we look forward to seeing you there.
