GROW 19 CAFE

ABOUT US

Grow 19 launched in September 2019. We are a college for learners with SEN, aged 18 - 25, based at The East Malling Centre near Maidstone. The college offers learners a chance to study one of three vocational options; Hospitality, Construction and Horticulture & Skills for working life, alongside Functional Skills. All accreditations are certified by City & Guilds. The aim for our learners is to gain employment, either independently, with support or take on a voluntary or community based role.

Our Hospitality learners who have, or are working towards, a Level 2 in Food & Hygiene Safety would love to welcome you, your family and friends to the Centre Cafe.
